SAAM ARCHITECTURE IS A WOMAN-OWNED SMALL BUSINESS headquartered in Boston, that delivers architectural, planning, and interior design services throughout New England and beyond, with expertise across sectors such as federal and defense, higher education, PreK-12, aviation, and workplace environments.

As a progressive firm, we offer the best of both worlds: the flexibility and personal attention of a small studio, combined with the insight and capabilities of a larger organization. Our multidisciplinary team brings a wealth of experience and perspective, using advanced technologies and a culture of collaboration to craft responsive, forward-thinking solutions for vertical construction projects.
