FEDERAL + DEFENSE | ARCHITECTURE + INTERIOR DESIGN

Saam Architecture is an **SBA-certified Woman-Owned Small Business (WOSB)** that helps federal agencies and AEC teams turn facility needs into practical, people-centered design. From readiness centers and airfield facilities to workplace renovations, we provide architectural and interior design leadership informed by federal criteria and existing-building conditions. With locations in Boston, Providence, Scarborough, and Austin, we bring regional knowledge and a collaborative approach to each assignment.

Federal delivery: Unified Facilities Criteria (UFC); Building Information Modeling (BIM); SpecsIntact; value engineering. Teaming: Architectural, interior design, and planning support for A-E pursuits and design-build teams. Let's define Saam's work package for your next pursuit.
